Dear Parent/Guardian

Re: Year 9 & 10 Science Tassomai Homework

Year 9 and 10 students will be using the online programme Tassomai for their Science homework. This will be starting on the week beginning Monday 24th September. The programme and the expectations have changed this year, so please read on so that you have the up to date information to support your child in successfully completing the homework tasks.

The Tassomai programme sets the student a daily goal and this **goal is a certain number of correctly answered questions**. Students will need to complete their **daily goal a minimum of 5 times per week**. The number of correct questions to achieve their daily goal is displayed each time they log in. It is really important that students keep up to date. If they get behind, their daily goal will increase and this will make it more time consuming every time they log in. Tassomai is most effective when used little and often.

So, in summary, students will need to log in to Tassomai on at least 5 different days and complete their daily goal each time they log in. They have been show how to do this by their teacher in their Science lesson.

The Science team will check on a Monday that the students have completed their daily goal at least 5 times in the week between Monday and Sunday. If there are less than 5 daily goals completed in a week then the student will receive a detention.

Students log in using their school e-mail address and the password they have chosen. There is a forgotten password link on the log in page if they have forgotten their password. If for any reason you do not have internet access at home, students can complete their Tassomai at break times, lunchtimes and after school in the library or computer rooms.

Please contact your child's Science teacher if you have any queries.

Kind regards

Mrs Masters
Science Teacher
