Assessment Manifests - What I need to know

What is an Assessment Manifest?

An Assessment Manifest is a personalised revision checklist for an examination. This booklet includes a list of your subjects with specific revision information for your upcoming summer examinations.

Why do I use this?

There is so much information you need to know for your summer GCSEs, this allows you to keep track of what you do and do not know, as well as ensuring you spread revision out throughout the year.

How do I use this?

You use this booklet as a checklist of your revision. By tracking your revision, you can easily tell if there is something you have studied more, or less. This is great for you to take charge of your own learning and make sure you are successful. From the example below, you can see the student is tracking their revision with codes, and they can see what they have and have not revised so far.
